

DUAL MBA PROGRAM IN “ENERGY AND SUSTAINABLE DEVELOPMENT MANAGEMENT”

Khazar University jointly with IPAG – Institut de Préparation à l’Administration et à la Gestion offers DUAL MBA program in Energy & Sustainable Development Management.

What is a “Double Degree”?

- Satisfy degree requirements of home institution and host institution
- Receive 2 degrees from home institution (KU) and host institution (IPAG).

Why a Double Degree?

- International Quality Standards
- Exposure to excellent research environments
- Opportunity to spend time at the partner institution
- A cultural and social experience
- Makes you unique
- Create an international network
- Great cities!

Double Degrees MBA

This programme comprises the Master’s courses of Khazar University and any special areas of IPAG pedagogy. It is adapted to the pre-requisites of the students admitted onto the programme as well as to company expectations in the relevant industries.

The program is taught over three semesters, each worth **60** credits

- semester 1: taught period at IPAG
- semester 2: taught period at Khazar University
- semester 3: the writing of a Master’s dissertation in either country. (This semester may include an internship. Dissertation should be finished 6 months before the end of the year).

The Masters degree of Khazar University and the IPAG diploma will be awarded to students who have satisfied the academic requirements of the two institutions: acquisition of 180 credits.

Objectives:

- 1 The primary objective of this course is to prepare and train future executives, as well as company directors, public administration leaders, and international organization leaders, to better understand the world of oil and energy by instructing the students on the legal, financial and geopolitical issues concerned.
- 2 Furthermore, students will be taught to analyze the global geopolitics of the oil and energy world with particular concern for an essential element in this field: the correct approach to the management of power struggles.
- 3 The third objective is to help our students achieve full understanding of real world strategies in the development of oil and other energies and most importantly, how to apply those strategies efficiently.
- 4 Finally students will be faced with the challenges of implementing economic reconversion programs in a world where oil revenues are decreasing.

Admission Requirements

Applicants must hold a bachelor's degree *in law or economics and management*, or a bachelor's degree from recognized educational institution and have adequate English level.

An interview with the Dean School of Economics and Management will be made for further evaluation of the candidate's analytical thinking, interpersonal, communication skills, readiness and compability to the program.

Admitted students will be notified of their acceptance after evaluative interview.

Application Procedure

All applicants are required submit the following documentation:

1. Completed application form
2. Full resume or Curriculum Vitae
3. Certified Copy(s) of undergraduate degree(s), diploma
4. Official academic transcripts
5. Statement of purpose
6. Two passport-sized photographs

Please submit the complete application package to the attention of the School of Economics and Management, to the following address:

Programs

This programme will award jointly the Master of Business Administration in “**Energy and Sustainable Development Management MBA**” of Khazar University and the IPAG Diploma.

A curriculum of the DUAL MBA program is developed in accordance with IPAG and Khazar Policies and Procedures. The courses will be taught over two semesters: the first at IPAG, and the second at Khazar University.

The following is the program of the DUAL MBA:

Program:

Module 1:

The Oil and Gas Scene: studies and discussions on exploration and production of oil and gas, including discussions on the markets, prices, geopolitics, technology, companies and populations of the countries concerned.

- The market for oil and gas in the world: demand and production.
- Management of those markets: oil and gas consumption, price evolution, and reserves.
- Oil and gas companies, states and private actors.

Module 2:

International relations and energy markets: studies and discussions on energy diplomacy and how to secure the energy roads and areas of production with different actors: companies, states, international organisations.

- Oil and gas production and management in unsafe countries.
- Diplomacy, international law and energy security.
- International organisations and energy.

Module 3:

Risk and financial analysis of energy market and projects: studies and discussions to provide the participants with a financial and risk analysis background and to understand how to best manage oil and gas projects.

- Investment and financial activity: how to manage the risks and plan the projects.
- Measuring the financial performance of energy projects.
- How to manage markets in which oil and gas are decreasing, for states and companies.

Module 4:

Environmental issues: studies and discussions on how to manage the environmental aspects of the oil and gas production according to certain states and international organizations laws. The impact of new energies on our economy as well as their impact on long term developments.

- Increasing consumption and its impact on environmental aspects.
- New energies and long term development.
- Market regulations and international politics.

Tuition Fees

The overall cost of DUAL MBA program is €8000 for the 2009/2010 academic year. Students are required to pay the receptive tuition fee before the start of each term or course seminar.

Graduation requirements

In order to graduate, students should meet the following criteria:

1. Complete all courses subject to the program including the independent Research Project
2. Maintain a minimum cumulative Grade Point Average of 3.0 which is equivalent to a “B”.

Candidates who successfully complete the DUAL MBA program will be awarded a Master of Business Administration degree from IPAG and Khazar University.

Faculty

Classes are taught in English by lecturers and top class professionals who have been selected by each institution.
